the morning

## Reindeer

Wrote my observations in time when

the light was

very dim, but I must say it

was very interesting

to see the reindeer in the snow

and the way they run.

They were very fast and

had a great deal of energy.

They were very fast and

had a great deal of energy.

They were very fast and

had a great deal of energy.

They were very fast and

had a great deal of energy.
